

The following is a statement I received from a resident in the Sundial building:

Based on the comment of Mr. Dys at the last quarterly meeting all employees below the Director level are included in the Christmas gift program including those who receive tips daily. In my opinion supervisors and managers as well as those receiving tips directly should be excluded from the Christmas gift fund. In view of the recent termination of employees accepting gifts directly from residents, it seems to me the whole Christmas gift policy should be revisited by the Resident Council.
